

# Chest X-Ray Report

Patient Name:	John Doe
Age:	32
Gender:	Male
Patient ID:	P123456
Date of Report:	2025-09-07

## Clinical Findings:

The patient underwent a chest X-ray for evaluation of mild cough and chest discomfort.

## Diagnosis:

No active pulmonary disease detected. Lungs clear. Heart size normal. No pleural effusion.

## Recommendations:

1. Maintain hydration.
2. Avoid smoking or pollutants.
3. Follow-up if symptoms persist beyond 7 days.
